

Dear Fellow Central Committee Member,

I've been in Southern Nevada for forty years and active in the Clark County and Nevada Republican Parties about as long. I have also created businesses in Tonopah and Goldfield and understand the very distinct needs of both ends of the State.

That's why I have a tremendous amount of respect for Mark Amodei. He's a rock solid conservative, fearless, and I have watched him for years address the issues of folks, North and South. The people in CD2 are so fortunate that he has decided to run for Congress. He is their perfect person for the job.

Mark is only one of two elected officials to have ever chaired the Nevada State GOP. Believe me, it's not a political stepping stone. We needed a steady hand, he accepted the request. When most elected officials ignore the Party, he has earned the right to ask NRCC members for their support.

We are blessed to have some excellent candidates to choose from on June 18, but we are truly blessed to have the best candidate willing to do battle on behalf of the people of Congressional District 2.

Mark Amodei doesn't have Washington D.C. in his blood. He has Nevada in his blood. That's why I trust him, and urge you to support him on Saturday.

Thank You for your thoughtful consideration,

*Jim*
