

*Dear Friend,*

*I had the privilege to serve in the legislature from Clark County for twenty years, from 1984–2004. On conservative issues affecting Nevada, and legislation that affected my District in the south-central part of the valley, I often found a colleague who would support me when many others would not, that's Mark Amodei.*

*We joined forces eight different times in floor votes to kill the first Nevada IRS and the first Nevada Income Tax. I believe you can trust him in Congress to show the same clear logical thinking under pressure as he did when we were fighting the 2003 tax package.*

*Mark has many remarkable qualities which would serve Nevada well in Congress. Such as his well developed power of persuasion and ability to work with people from all walks of life. Many times we give too much credit to people that just say no and not enough credit to a person like Mark that can turn the tide of legislation and truly make a difference.*

*I know this is a difficult CD2 nomination that you are facing on June 18th, but believe me when I say, choosing Mark Amodei as your nominee is not difficult at all. I know Mark looks at this process like a job interview. I think that is refreshing. If you're like me, and have had a small business, you take the hiring process very seriously. You hire people that have the best qualifications and experience for the job in which they applying. If you want a Secretary of Defense you would hire Kurt Lippold. If you want an Attorney General you would hire Greg Brower. If you want a superb conservative Congressman you would hire Mark Amodei.*

*I have noticed too that everyone in this race is trying to out-conservative the other candidates. I appreciate Mark's statement that he would rather make a difference than make a statement. In the legislature I saw that time and again. While a lot of people would make speeches about family values, did you know that he was the only legislator in the last ten years to have moved pro-life legislation out of his committee and out of the Senate?*

*I know that I have a unique perspective because of the many years I took the arrows for the GOP in the State Senate. That also allows me the benefit of knowing the beliefs, actions, and character of a man that many of you do not have the privilege of knowing. That's the reason I have shared my thoughts with you about Mark, and why I'm urging you to weigh that in your crucial decision.*

*Thank you for taking the time to read this. Thanks for serving the Nevada GOP on the State Central Committee.*

*Best Regards,*

*Ann O'Connell*
